

On the banks of the Motueka River...

STONEFLY
LODGE

NEW ZEALAND

End of Season Specials offer HUGE savings - Stonefly Lodge - Fly Fishing, New Zealand

During the March / April period the Motueka River and its tributaries provide some of the best fishing of the season and it is a period when there are less anglers and stable weather. The river levels are at their lowest and access to some of the deeper pools provides opportunities to sight cast to some monsters. End of March last season one of our guests landed a 10.5 Lb brown trout out of a pool with 2 other trout the same size.

The lower levels allow us to cross sections of the high country rivers usually too high in the early season, making for better access to exciting fly fishing.

Stonefly Lodge has limited dates available for the end of the 2013/14 season so we can offer the following great deals:
